Regulation abroad and international frameworks

- BSI. MDR transition timelines extended: Regulation (EU) 2023/607 (Class III custom-made implantables to 26 May 2026; other Class III and IIb implantables to 31 December 2027; other IIb, IIa, Is, Im to 31 December 2028; sell-off date removed); 20 March 2023. <https://www.bsigroup.com/it-IT/Dispositivi-Medici/news-centre/enews/2023-news/mdr-transition-timelines-extended/> — Slides: 42
- CASRAI. Health Canada medical device licence (MDL) and MDALL guide: Classes I to IV; MDEL for Class I; MDL for Classes II to IV; Regulatory Enrolment Process and CESG from January 2026. <https://www.casrai.org/guides/health-canada-medical-device-license-mdl-mdall> — Slides: 40, 43
- Centers for Medicare & Medicaid Services. Open Payments: Applicable Manufacturer Fact Sheet (annual reporting of consulting fees, honoraria, food, travel, research payments, royalties and ownership or investment interests paid to physicians and teaching hospitals). <https://www.cms.gov/files/document/applicable-manufacturer-fact-sheetpdf> — Slides: 23
- Critical Software. IEC 62304 Edition 2 changes, August 2026: two software safety classes, wider health-software scope, AI/ML life cycle; publication forecast 12 August 2026 (verify on iec.ch). <https://asd.criticalsoftware.com/en/newsroom/iec-62304-edition-2-changes-august-2026> — Slides: 45

- DQS. MDR and IEC 81001-5-1:2021 (health software security activities in the product life cycle): FDA-recognised consensus standard; EU harmonisation scheduled 27 May 2028; 2025. <https://www.dqsglobal.com/en/explore/blog/mdr-iec-81001-5-1> — Slides: 45
- Emergo by UL. US FDA and EU risk classification of medical devices: three US classes by product code vs four EU classes by rule; Class II absorbs most of IIa and IIb; 2025. <https://www.emergobyul.com/news/us-fda-and-eu-risk-classification-medical-devices> — Slides: 40
- Emergo by UL. US FDA issues 2025 annual report on medical device regulatory activities (3,238 510(k) clearances, 27 De Novo grants, 41 original PMAs, 2,210 PMA supplements); 2026. Consultancy summary; verify against the FDA report. <https://www.emergobyul.com/news/us-fda-issues-2025-annual-report-medical-device-regulatory-activities> — Slides: 41
- Fieldfisher. Breaking the bottleneck: the Commission's proposal for targeted MDR/IVDR amendments (broader clinical evidence, predetermined change control plans, EMA coordinating role, 50% fee reductions for small enterprises); 16 December 2025. <https://www.fieldfisher.com/en/locations/belgium/insights/breaking-the-bottleneck-the-commission-s-proposal> — Slides: 42
- Freyr Solutions. Health Canada medical device registration: MDSAP certificate required for Class II to IV licences (sole QMS route since 2019); 2025. <https://www.freyrsolutions.com/medical-devices/health-canada-medical-device-registration> — Slides: 43
- General Medical Council (UK). Making and using visual and audio recordings of patients: recordings for use in widely accessible public media (television, radio, internet, print); consent usually in writing, whether or not the patient is identifiable. <https://www.gmc-uk.org/professional-standards/the-professional-standards/making-and-using-visual-and-audio-recordings-of-patients/recordings-for-use-in-widely-accessible-public-media---television-radio-internet-print> — Slides: 21, 22
- Global Harmonization Task Force (now IMDRF). GHTF/SG1/N77:2012 Principles of Medical Devices Classification (Classes A to D); endorsed 2 November 2012. <https://www.imdrf.org/sites/default/files/docs/gh tf/final/sg1/technical-docs/gh tf-sg1-n77-2012-principles-medical-devices-classification-121102.pdf> — Slides: 40
- GOV.UK. First major overhaul of medical device regulation comes into force across Great Britain: Medical Devices (Post-market Surveillance Requirements) (Amendment) (Great Britain) Regulations 2024, in force 16 June 2025. <https://www.gov.uk/government/news/first-major-overhaul-of-medical-device-regulation-comes-into-force-across-great-britain> — Slides: 43
- In Compliance Magazine. The IEC 60601 amendment updates have published: IEC 60601-1:2005 + A1:2012 + A2:2020 (edition 3.2); 2020. <https://incompliancemag.com/the-iec-60601-amendment-updates-have-published-changes-and-impacts/> — Slides: 45
- Latham & Watkins. UK MHRA launches consultation on indefinite recognition of CE-marked medical devices and an international reliance route; February 2026 (consultation closed 10 April 2026). <https://www.lw.com/en/insights/uk-mhra-launches-consultation-on-indefinite-recognition-of-ce-marked-medical-devices> — Slides: 43
- Meddeviceguide. EU MDR notified-body certificate expiry cliff: NANDO analysis 2026 (about 48 MDR-designated notified bodies; 45 to 50 range). <https://meddeviceguide.com/blog/eu-mdr-notified-body-certificate-expiry-cliff-eudamed-nando-analysis-2026> — Slides: 39, 42, 44
- MedTech Dive. Medical device safety and recalls (MAUDE, recalls; about a quarter of Class I recall notices 2018 to 2022 carried UDI); 2025. <https://www.medtechdive.com/trendline/medical-device-safety-recalls-fda/502> — Slides: 41
- Morgan Lewis. Overview of medical device regulation in China: Class I filing, Class II provincial registration, Class III central NMPA registration; type testing; clinical evaluation and exemption catalogue; December 2024. <https://www.morganlewis.com/pubs/overview-of-medical-device-regulation-in-china> — Slides: 43
- Pharmaceuticals and Medical Devices Agency (Japan). Regulations and approval/certification of medical devices under the PMD Act: Classes I to IV; notification, Registered Certification Body certification, MHLW approval; Marketing Authorization Holder. <https://www.pmda.go.jp/english/review-services/reviews/0004.html> — Slides: 40, 43

- Presencis. ISO 13485 timeline: 2016 edition confirmed by systematic review (decision recorded 31 October 2025); no revised edition published as of 2026. <https://cdn.presencis.com/regulations/iso-13485/timeline/> — Slides: 45
- RAPS. MHRA to move forward with medical device reliance on comparable regulators (US FDA, Health Canada, Australia TGA, EU CE); 2025. <https://www.raps.org/resource/mhra-to-move-forward-with-medical-device-reliance.html> — Slides: 43, 45
- RAPS. Team-NB survey shows slowdown in growth of MDR and IVDR certificates issued in 2025 (17,260 certificates; 25,978 MDR applications vs 13,953 MDR certificates; typical time to certificate 13 to 18 months; 58% of elapsed time with the manufacturer); 2026. <https://www.raps.org/resource/team-nb-survey-shows-slowdown-in-growth-of-mdr-and-ivdr-certificates-issued-in-2025.html> — Slides: 42, 44
- Registrar Corp. An overview of FDA's updated UDI requirements for Class I medical devices (GUDID; July 2022 guidance); 12 May 2025. <https://legacy.registrarcorp.com/an-overview-of-fdas-updated-udi-requirements-for-class-1-medical-devices/> — Slides: 41, 44
- Ropes & Gray. China unveils new medical device regulations: Regulations on the Supervision and Administration of Medical Devices, State Council Order No. 739, effective 1 June 2021; MAH regime; 2021. <https://www.ropesgray.com/en/newsroom/alerts/2021/March/China-Unveils-New-Medical-Device-Regulations> — Slides: 43
- SimplerQMS. EU MDR medical device classification: Classes I (Is, Im, Ir), IIa, IIb, III under the 22 rules of Annex VIII; 2025. <https://simplerqms.com/eu-mdr-medical-device-classification/> — Slides: 40, 42, 44
- Swissmedic. Swissmedic joins the Management Committee of the International Medical Device Regulators Forum (27th MC meeting, Tokyo, 10 to 14 March 2025); IMDRF founded 2011 as successor to the GHTF; WHO observer. <https://www.swissmedic.ch/swissmedic/en/home/news/mitteilungen/smc-mitglied-management-committee-imdrf.html> — Slides: 38, 39
- Therapeutic Goods Administration (Australia). Use of market authorisation evidence from comparable overseas regulators / assessment bodies for medical devices including IVDs (EU, US FDA, Health Canada, Japan, MDSAP from 2018, Singapore HSA from 2022); October 2024. <https://www.tga.gov.au/sites/default/files/use-market-authorisation-evidence-comparable-overseas-regulators-assessment-bodies-medical-devices-including-ivds.pdf> — Slides: 43, 45
- Therapeutic Goods Administration (Australia). What classification is my medical device? Decision tree: Classes I, Is, Im, Ir, IIa, IIb, III (Therapeutic Goods Act 1989; Medical Devices Regulations 2002). <https://www.tga.gov.au/resources/decision-trees/what-classification-my-medical-device> — Slides: 43
- TÜV NORD. EUDAMED: mandatory use of the first four modules (actor registration/SRN, UDI/device registration, notified bodies and certificates, market surveillance) from 28 May 2026, under Regulation (EU) 2024/1860 and Commission Decision (EU) 2025/2371. <https://www.tuev-nord.de/en/knowledge/standards-in-focus/eudamed-mandatory-use-of-first-four-modules-from-may-28-2026/> — Slides: 42, 44
- TÜV SÜD. Medical Device Single Audit Program (MDSAP): one audit for TGA, ANVISA, Health Canada, MHLW/PMDA and US FDA; observers EU, Singapore HSA, UK MHRA, WHO Prequalification; built on ISO 13485. <https://www.tuvsud.com/en-us/industries/healthcare-and-medical-devices/medical-devices-and-ivd/medical-device-market-approval-and-certification/medical-device-single-audit-program-mdsap> — Slides: 39, 45
- TÜV SÜD. UKCA for medical devices: CE-marked devices accepted in Great Britain to 30 June 2028 (MDD/AIMDD) and 30 June 2030 (MDR/IVDR); about 90% of GB devices still CE-marked; 2025. <https://www.tuvsud.com/en-us/industries/healthcare-and-medical-devices/medical-devices-and-ivd/medical-device-market-approval-and-certification/ukca-for-medical-devices> — Slides: 43, 45
- US FDA. Breakthrough Devices Program: 1,246 designations granted to 31 December 2025; 185 devices with marketing authorisation; 136 designations in 2025. <https://www.fda.gov/medical-devices/how-study-and-market-your-device/breakthrough-devices-program> — Slides: 41
- US FDA. Device approvals and clearances: Class I, II and III; 510(k), De Novo, PMA, HDE and IDE pathways. <https://www.fda.gov/device-approvals-and-clearances> — Slides: 41

- US FDA. MDUFA performance report to Congress, 30 September 2025: 510(k) goal 95% within 90 FDA days; original PMA total time to decision goal 285 calendar days (FY2025 to 2027); historical 510(k) total time 127 to 159 calendar days. <https://www.fda.gov/media/191127/download> — Slides: 41, 44
- US FDA. Medical Device User Fee Amendments (MDUFA): user fees for FY2026 (1 October 2025 to 30 September 2026); small-business threshold US\$100 million gross receipts. <https://www.fda.gov/medical-devices/user-fee-amendments-mdufa> — Slides: 41, 44
- US FDA. Quality Management System Regulation: 21 CFR Part 820 incorporating ISO 13485:2016 by reference; final rule February 2024, effective 2 February 2026 (Compliance Program 7382.850). <https://www.fda.gov/quality-systems-regulation> — Slides: 41, 44
- World Health Organization. WHO designates new WHO-Listed Authorities (Health Canada, Japan MHLW/PMDA, UK MHRA; 39 agencies listed); 7 August 2025. Transitional WLA list for medical devices published 23 July 2026. <https://www.who.int/news/item/07-08-2025-who-designates-new-who-listed-authorities--strengthening-global-access-to-quality-assured-medical-products> — Slides: 39, 43, 45
- World Health Organization. WHO Global Model Regulatory Framework for Medical Devices including in vitro diagnostic medical devices; 2017 (basic-level and expanded-level controls). <https://www.who.int/publications/i/item/9789241512350> — Slides: 39
- World Medical Association. World Medical Association Declaration of Helsinki: Ethical Principles for Medical Research Involving Human Participants. JAMA; published online 19 October 2024 (paragraph 27: dependent relationship; paragraph 34: post-trial provisions). <https://jamanetwork.com/journals/jama/fullarticle/2825290> — Slides: 21

- Regulatory facts were verified from gazette notifications, CDSCO documents and PIB releases where search results exposed them, otherwise from consistent professional summaries; the facts files in build/facts record the confidence tag of every item. Official PDFs on cdsco.gov.in could not be fetched from the build environment; re-check rule numbers against the consolidated MDR-2017 text before citing them formally.
- FoGO results are project-reported (Ahilaya Biomedicals); SwaKnee results are company-reported (Swayogya); neither has been independently verified or peer-reviewed. No cited institution has evaluated or endorsed either device.
